Provider: Dr. Lisa Nguyen

Subjective:

Patient reports increased fatigue and occasional shortness of breath over the past 2 weeks. No chest pain. No fever. Appetite and sleep unchanged.

Objective:

Vitals reviewed from recent clinic visit (June 15): BP 130/85, HR 78, SpO2 97% RA.

Physical exam deferred due to virtual format.

Assessment:

Likely mild anemia, consider other causes of fatigue. No acute cardiorespiratory concerns.

Plan:

- Order CBC, ferritin, B12.
- Encourage hydration and rest.
- Follow-up in 1 week to review labs.
